MULTICUT 200

The Multicut 200 is the toughest 2.0 metre rotary mower of its kind.

Designed and manufactured without any compromise on quality to provide a heavy duty and robust vegetation maintenance machine.

Featuring the unique high lift HD3 blade arrangement with three 12 millimetre thick blades or alternatively the heavy duty swipe chain kit — this specialist model is suitable for cutting and mulching scrub and vegetation of up to 100 millimetre in diameter.

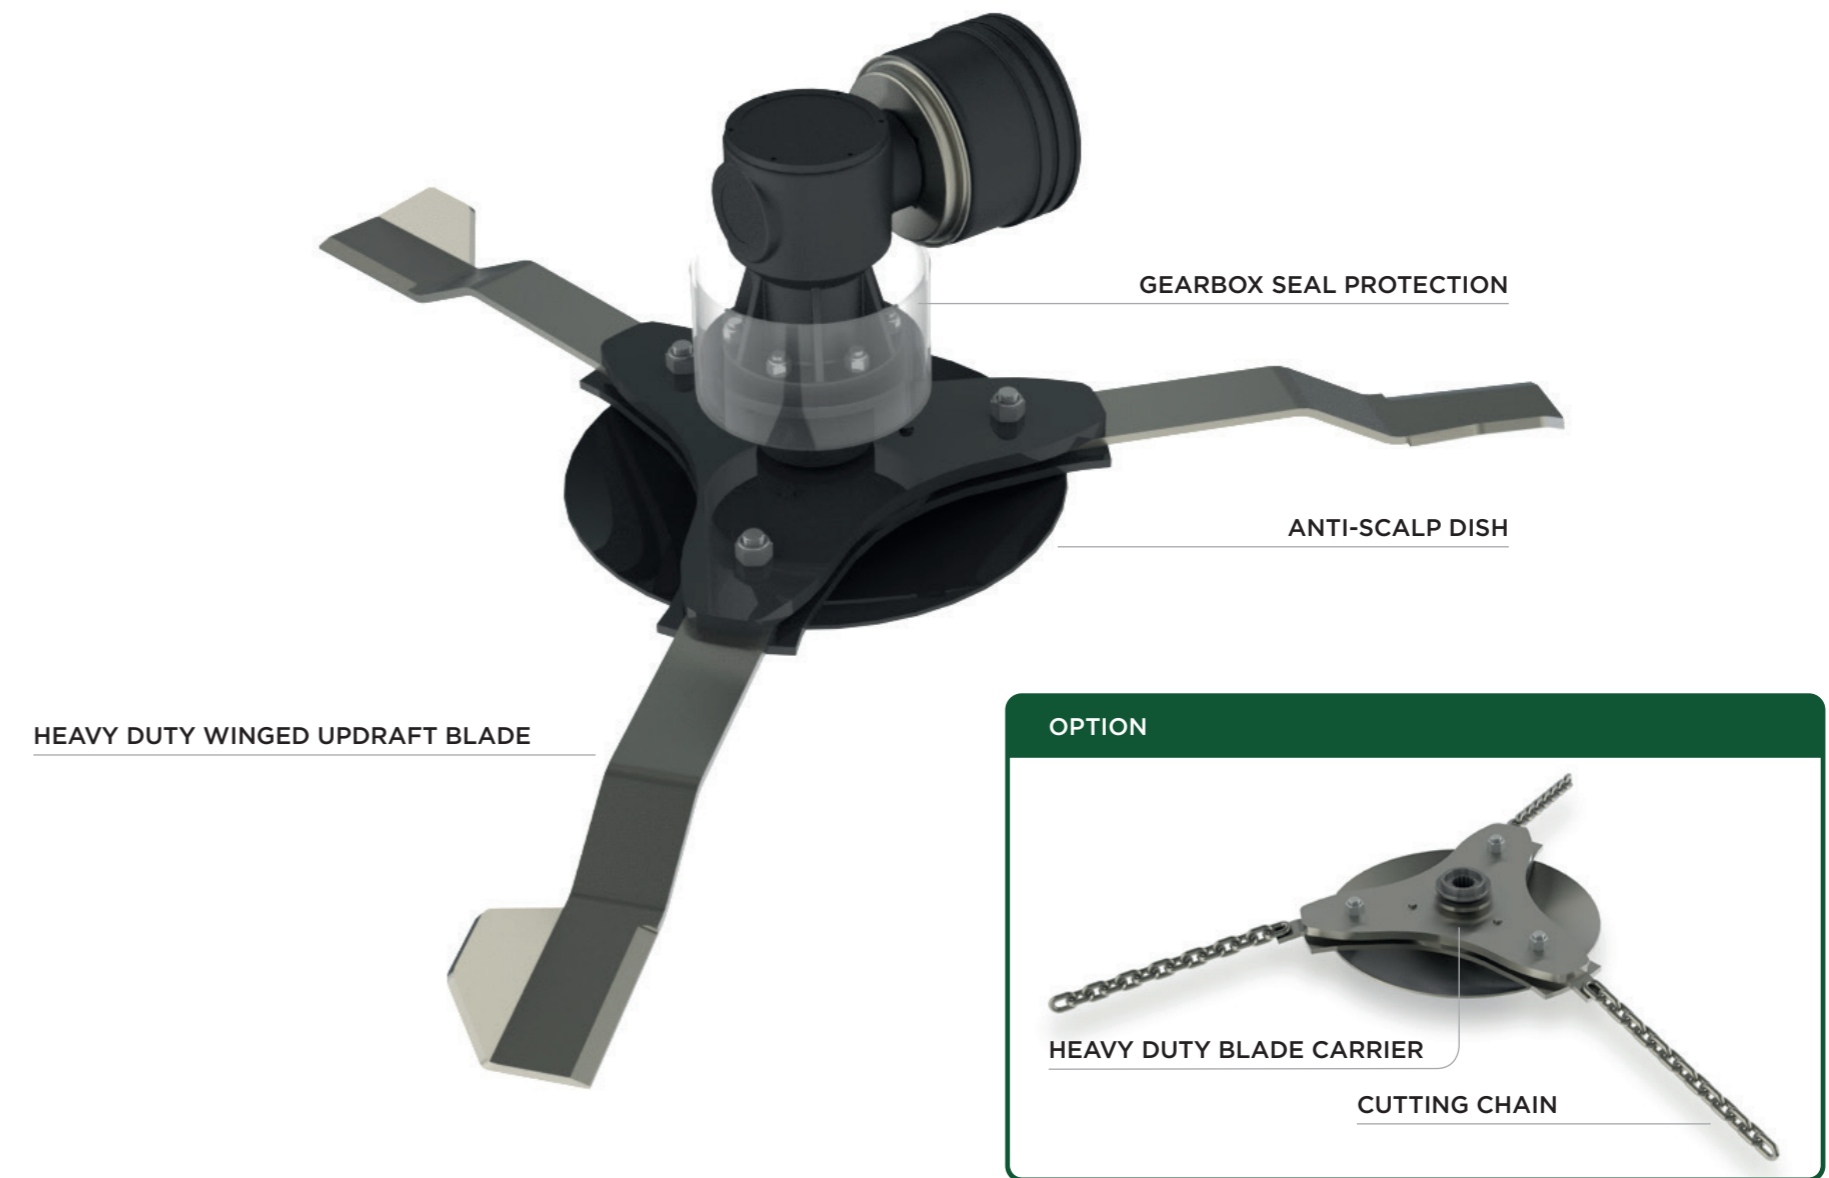

With full length skids, floating linkage and rear gauge wheel the Multicut 200 provides a consistent cut on even the most undulating terrain.
