We are proud stockists of Swazi and Seeland clothing as well as Harkila and Gateway1 footwear - everything you need for the upcoming shooting season! **What's more, our range is available to purchase in all our depots and online.**

Swazi produce high performance, technical clothing, perfect for shooting and outdoor activities. It is well known globally for its high quality and longevity of life. We work closely with the Swazi brand and supply the latest stock to the UK.

HÄRKILÄ

leading, high quality as their clothing. Every model is thoroughly tested to ensure that they meet their demanding standards of waterproofing.

Harkila set a goal: For their footwear to achieve the same industry-

Seeland

Est. 1976

Hunting traditions and Scandinavian design are the core elements of the

Seeland brand, which is known for its durability, comfort and functional features.

Gateway 1® wellies are a range of tough, comfortable boots designed, developed and tested in Scandinavia. Essential kit for when taking part in country pursuits on a variety of terrains from hunting to farming or just walking the dog.

TONG SWIFTLIFT

GRANGE
MACHINERY

FOREWORD

We are pleased to announce that we have taken over the distribution rights for the Energreen range of self-propelled vegetation mowers (SPV) covering an area that extends from the Scottish borders, down to London.

The agreement includes sales, service and support for new and existing Energreen machinery, with an extensive stock of genuine parts available from all three of our depots, at Carrington, Sutterton and Market Rasen. In addition, we will also be helping Energreen SPA to establish a dealer network for the remainder of the UK.

"We're extremely pleased to have added the Energreen SPV range alongside our existing premium brands," explains Daryl Dunn, sales and product manager for the Energreen range. "As a professional vegetation management tool for environmental, railways and highways sectors, the Energreen range is geared towards the maintenance of any green area."

Built in Poiana Maggiore near Vicenza, Italy, the hydrostatic, four-wheel drive SPV range comprises four models from 143hp to 220hp, and with telescopic booms from 5.7m to 17m. Depending on the model, a swivelling cab and multi-function capability with front and rear linkage and front PTO, can also be specified.

Energreen also provides a wide range of attachments for use with its SPV models. Alongside flail mowers and pulverisers, choices include saw bars, shears, cutterbars, rotary brushes, stump grinders, grapples and grabs. In addition, river buckets, ditching buckets and barrier mowers are also available.

"We're already familiar with the Energreen product, having sold the range for several years under a previous brand," explains Daryl. "Our staff have had comprehensive training at the factory, to further prepare our business for the full integration of Energreen products."

FOR SALE

TONG SWIFTLIFT EXTENDO 900 ELEVATOR Ref.AG29541

C/W - 900mm wide belt, 3-phase electrics, variable speed drive, auto slewing platform, hopper, drawbar, 20m mains cable, power transmission dual drive, & luffing head.

£52,500+VAT

2023 KUBOTA M5-112 TRACTOR & LOADER Ref.AG27634

C/W - 115HP, 36/36 gears, LHR, 40kph, 4VWD, 2 manual spools, work lights, hyd pick up hitch, air ride seat & LA2000 loader with euro attachment & passenger seat.

£69,950+VAT

2022 KUBOTA M7173 TRACTOR Ref.AG20842 Hours: 1734

C/W - 170HP, 30F/15R 50kph powershift trans with creep, front axle suspension, dromone PUH, auto & spring stabilisers & joystick. Tyres F:540/65R28 R:650/65R38. Warranty to 10/26 / 3000 hrs from 8/22.

CASE 140 TRACTOR Ref. 11011309

C/W - CVX gearbox, 540/65 R28 fronts, 650/65 R38 rears, 4 electric spools, mechanical cab suspension, air seat, front weight hanger with weights, passenger seat, 4 speed PTO, air con, radio, front axle suspension, 50KPH, air brakes

COUSINS ROLLS Ref.AG31961

C/W - 6.3m working width, horizontal folding, 3 section, plain rings.

KVERNELAND LS250 5 FURROW PLOUGH Ref.AG29659

C/W - 5f (extendable), 250 HP head stock, no 28 bodies, extra stays, knock on points, mechanical front furrow, quick fit points, disc coulter, maize skimmers, 320/60-12TT depth/ transport wheel & lock.

KVERNELAND TL GEO 1875 FERT SPREADER Ref.AG30751

C/W - 4 x 5t weigh cells, central reference sensor, LED road lights, mud & stone guards, Isobus, folding hopper cover, hopper grid & windows, 12-45m spread, PTO overload clutch, grading box. 2 x hopper extensions, hopper emptying.

KVERNELAND TL GEO 1875 FERT SPREADER Ref.AG30761

C/W - 4 x 5t weigh cells, central reference sensor, LED road lights, mud & stone guards, Isobus, folding hopper cover, hopper grid & windows, 12-45m spread, PTO overload clutch, grading box. 2 x hopper extensions, hopper emptying.

FOR SALE

KVERNELAND TS DRILL
Ref. AG30816

C/W - 6m working width, 40 direct coulters, ECOM (Isobus), 1700 litre hopper, hopper cover, rear harrow, hydraulic fan drive, auto reset leg tine, road lights & tramline valves.

No control screen

KVERNELAND DTX 300 CULTIVATOR Ref. 11011299

C/W - 180 x 180x10mm main frame, 5 prolift tines (shearbolt), 2 rows of cultivation discs, DD rear packer, hydraulic depth control & road lights.

KVERNELAND ROTAGO 4060F POWER HARROW Ref. 11011301

C/W - 6m working width, hydraulic folding, hydraulic depth control, hydraulic levelling board, quick fit tines, 575mm tooth packer roller with carbide scrapers & road lights.

KVERNELAND 3400B TTS VARIOMAT PLOUGH Ref. 11011302

C/W - 6 furrow, on land/in furrow, no 40 slats, quick fit points, frame strengthening kit, TTS, disc coulters, 420/55-17 depth and transport tyre.

VADERSTAD RAPID 400F DRILL
Ref. AG31563

C/W - 4m width, Fenix metering unit, drawbar mounted packer wheels, 4 rows of discs, bout markers, pre emergence markers, rear pigtail harrows, 2x wheel eradicators & hydraulic fan drive.

£35,950+VAT

6M LOW DISTURBANCE TOOLBAR (LDT) Ref. AG20289

C/W - CAT 3 & 4 linkage, 12 x low disturbance legs, 12 x tungsten points and hard faced legs, hyd front cutting discs, automatic wing folding rams, 4 x double acting hyd supply, 1x heavy duty clevis, ISOBUS connection.

£15,950+VAT

GRANGE MACHINERY 4M CCT
Ref. AG19879

C/W - CAT 3 & 4 linkage, 8 x low disturbance loosening legs at 0.5m leg spacing with a range of 300mm working depth, 8 x tungsten points & 8 x hard faced lower legs.

£19,500+VAT

GRANGE MACHINERY 3M STRIP TILL Ref. AG24330

C/W - 3m working width, 50cm spacing, 6 row, shearbolt protection & inline cultivation discs.

FOR SALE

SPEARHEAD MULTICUT 650 PROLINE Ref. AG31733

C/W - Wide angle PTO, levelling tiebars, hydraulic folding, front and rear chain curtains, 5 rotors, 6 blades per rotor.

£19,500+VAT

2024 SPEARHEAD MULTICUT 480 PROLINE Ref. AG29390

C/W - 4.6m working width (4.8m overall width), clevis hitch, wide angle PTO, levelling tie bars, hydraulic wing lift and support, full length side skids, front & rear chain curtains, 3 rotors with 6 blades per rotor, slip clutch & protected gearboxes.

KVERNELAND FHP PLUS 230 MOWER Ref. AG31026

C/W - 2.3m working width, double skin, hydraulic offset, hydraulic break back with hammer flails and large rear roller. PTO driven.

SPEARHEAD ROLLICUT 170 Ref. GC13814

Designed for light-duty amenity mowing, high-quality finish in material up to 20mm. Excels in parkland, golf courses, orchards and is the perfect choice for mounting on compact tractors.

SPEARHEAD TWIGA T65 CLASSIC HEDGE CUTTER Ref. GC29675

C/W - Hydraulic proportional controls, 1.2m MPI flail head, DD,T flails, manual rear roller, 65HP pump, 3 point linkage mounting, cable rotor reverse and rear lights.

SPEARHEAD SNIPER 190 MOWER Ref. GC13805

C/W - Heavy duty hammer flails, electronically balanced rotor, enclosed self-aligning bearings. 140mm full width adjustable, self-cleaning rear roller with scraper.

KUBOTA EK1-261 COMPACT TRACTOR Ref. GC29055

C/W - 25HP, ROPS, turf tyres & manual gearbox.

KUBOTA BX261 COMPACT TRACTOR Ref. GC28108

C/W - HST, ROPS, 26HP, high-low gear shift, 4WD & turf tyres.

KVERNELAND 0% FINANCE OFFER ON ALL EQUIPMENT!

Annual or monthly finance options available on all Kverneland equipment until 13th January 2026. Excludes self-propelled diet feeders and self-propelled sprayers. Business users only. Fees apply. See Terms & Conditions.

Choose one of the following finance profiles:

- ① 1 payment upfront followed by 11 monthly payments (1+11) at **0%** flat rate p.a
- ② 1 payment upfront followed by 1 payment a year later and 1 payment two years later (1+2) at **1.25%** flat rate p.a.
- ③ 2 payments upfront followed by 22 monthly payments (2+22) at **1.75%** flat rate p.a
- ④ 3 payments upfront followed by 33 monthly payments (3+33) at **2.25%** flat rate p.a

Based on **50%** of the RRP or balance to finance, whichever is lower. Alternative profiles are available on request. Offer available until 13th January 2026. See terms and conditions.

Terms & Conditions:

Finance for business purposes only. Subject to acceptance and affordability checks. Applicant must be 18 or over. Promotion valid until 13th January 2026. Available on new equipment only with minimum RRP of £5,000. The finance product offered under this promotion is hire purchase. Full VAT is due on signing. An option-to-purchase fee of £50 plus VAT will be collected with the final payment. You will own the machine when all payments have been made. Alternative finance options are available, terms apply. An annual administration fee of £40 plus VAT applies. A documentation fee of £50 will be collected with the first rental. Images are for illustrative purposes only. The offer is subject to a maximum balance to finance of 50% (based on RRP). Kverneland Group Finance is a trading style of BNP Paribas Leasing Solutions Limited. Finance provided by BNP Paribas Leasing Solutions Limited, Midpoint, Alençon Link, Basingstoke, Hampshire, RG21 7PP. Registered in England No. 901225. As a funder, BNP Paribas Leasing Solutions Limited typically pay a commission, fee or other remuneration to credit brokers who introduce business to them; please contact the broker if you require more information.

SERVICE & WORKSHOP

We can help you keep on top of your maintenance programme this autumn

Rolling Road Trailer Brake Testing & Health Checks

We can offer this service at any of our depots or on-farm with our machine, equipped with extra wide rollers to accommodate all makes and models of trailers. Health checks also include checking wheel bearings, spring or tandem units, brakes, pipework, rams, electric and tyres.

Tractor Servicing

We have expertise and experience servicing all makes of tractors covering air-conditioning, hydraulic rams, gearbox overhaul and engine rebuilds. Tractor services can be performed on and off site. Our experienced team of engineers are available to maintain your machinery to the highest possible standard. We keep a huge amount of parts in stock to ensure maintenance is performed as quickly as possible.

Drill Testing

We are a British Sugar approved test centre. Ensure your drill units are booked in for their annual tests. For electric drive drills, we offer a full on-farm testing service.

Mobile Rotor Balancing & Vibration Analysis

Ensure your rotors, flail mowers, mulchers, fans, shafts and pumps are operating smoothly while running. Wear and tear can unbalance a machine resulting in short machine and bearing life. No need to remove rotors or shaft reducing labour and down time!

Hydraulic Hose & Pipe Crimping Service

We offer a pipe crimping and hydraulic hose making service at our Carrington and Sutterton depots, making and repairing most sizes of hydraulic pipes and rams used on the farm today. Our machine ranges from 1/4" to 1" bore.

Air Conditioning Service

Our BAGMA certified air conditioning technicians are able to test, repair and service your air conditioning systems on a wide range of farm vehicles and machinery, including farm trucks, small vans, tractors, combine harvesters and lorries.

PTO Replacement Parts & Shafts Replacement parts and shafts for many types of PTO and gearboxes.

MD Disc targets black grass control

With 1,000 acres of combinable crops and the ability to house 1,000 head of cattle on its beef finishing unit, SC & EA Gadsby aims to grow everything it feeds at Low Marsh Meadow, Outwell near Wisbech.

Run by husband and wife team Sam and Emily Gadsby, the rotation comprises winter wheat, spring barley, spring beans, grass, lucerne and grain maize – the latter accounting for around 300 acres.

“Our ultimate goal is to direct drill and it starts with moving less and less soil, so we can have a high-on permanent stale seedbed and get black grass under control,” explains John Gadsby, who manages the arable operation for his brother Sam, alongside his role as an agricultural consultant for ADAS.

The exception is after grain maize, where ground is ploughed and then drilled with spring crops, spreading the workload.

“We’re looking to improve soil health, make fewer passes and lower establishment costs,” he adds. “By reducing the amount of soil we move over cereals, we can also manage black grass incidence.”

Alongside its in-house farming activities, Sam and Emily Gadsby run a team of 10 staff supported by seven Heath Superchangers, harvesting, producing 80,000 bales/year. Cultivations rarely start before September, to employ traditional stale seedbed techniques.

“It’s why we looked at the u-drill corn drill, as there’s a lot of potential in the system. By direct drilling, we can limit the amount of soil we move, so it should be better and we can adopt a more targeted approach than recreational sub-soiling across the field and silty clay loams.”

A trusted, long-term relationship with Vermeer, Irelands Farm Machinery and experts

and Siloking feeder wagon, the Gadsbys tried various processes of crop establishment before having a demonstration of a 6m u-drill with MD discs during the autumn of 2023 to establish winter wheat.

"We really like those straight discs up front, which do a great job of cutting a narrow strip of soil, into which seed is placed and firmed up by the press wheels. Everything else between the 16.6cm rows is untouched," adds John.

"The germination and yield results were so good that we then hired the drill to sow autumn 2024's crops, and our spring barley, before eventually buying a new drill with the help of a grant," he says. "We bought a Plus version, to give us grain and fertiliser capability."

He says that the farm is still playing about with settings, and is keen to run the front discs as deep as possible, to encourage better root growth.

"With phosphate put down with winter wheat and beans, and DAP put in with spring barley, we're on the right path," he says. Output is around 100 acres/day, with the drill pulled by either the farm's 300hp Fendt 828 or a hired in Challenger from specialist Ian Houlgrave.

"The 6m working width is ideal for our field sizes and local roads, and there's enough capacity in the system that we don't have to rush about to achieve 100 acres/day," explains Sam Gadsby. "It's a system that helps with time management at what is a very busy time of year, along with many other benefits from using the minimum disturbance discs."

LEGEND

Introducing the LEGEND range

The revolution in trailer design continues with the new 'Legend Range' of trailers from Stewart, who as responsible suppliers take pride in the quality of their trailers with safety being a critical part of any design.

The LEGEND Range incorporates a new and improved lighting system and several innovative safety features.

The LEGEND Range is built with a mild steel body. The trailers are built with a box section chassis

and the body has a box section body frame and top rail for strength and durability.

The key features are listed below. Ask for further details and a quote

LEGEND

TIPPING TRAILERS

**BIGGER
STRONGER
TOUGHER**

BIGGER STRONGER TOUGHER

FLAT TRAILERS

FLAT TRAILERS CAN BE SUPPLIED WITH 4MM STEEL OR 28MM KERUING FLOORS FOR THE SAME PRICE

BALE TRAILERS

BALE TRAILERS FROM 26FT TO 36FT CAN BE BUILT BASED ON THE STANDARD FLAT TRAILER RANGE.

LOW LOADERS

FITTED WITH A 5MM KERUING FLOOR. HYDRAULICALLY OPERATED RAMSAS STANDARD ON 15T & 22T MODELS.

LIVESTOCK TRAILERS

FABRICATED ALMOST ENTIRELY IN ALUMINIUM GIVING A STRONG BUT LIGHTWEIGHT, DURABLE CONSTRUCTION.

DUMPER TRAILERS

THREE TYPES OF CONSTRUCTION TRAILERS: DUMPERS WITH A SCOW TAIL, MONOCOQUE TRAILERS & PRO TRAILERS WITH A HARDOX® BODY.

PRO SERIES

THE PRO SERIES TIPPING TRAILERS ARE BUILT WITH HARDOX® BODIES. ASK FOR OPTIONS.

WHAT IS HARDOX®?

Hardox® is a wear plate; structures made of Hardox® weigh less and last longer than those made from mild steel. A tipping body made from Hardox® is more durable due to the unique combination of hardness and toughness. Using Hardox® allows for a body design with a minimum number of reinforcing beams on the outside.

GX RANGE

THE GX RANGE ARE THE STANDARD TIPPING TRAILERS BUILT WITH A MILD STEEL BODY.

ROAD KING

BUILT ON THREE AXLES WITH AIR SUSPENSION, AND AN OPTIONAL REAR STEER AXLE FOR ADDED MANOEUVRABILITY.

ASK OUR SALES TEAM ABOUT THE OPTIONS AVAILABLE ON EACH RANGE
